

JAPANTOWN GRANT PROPOSAL

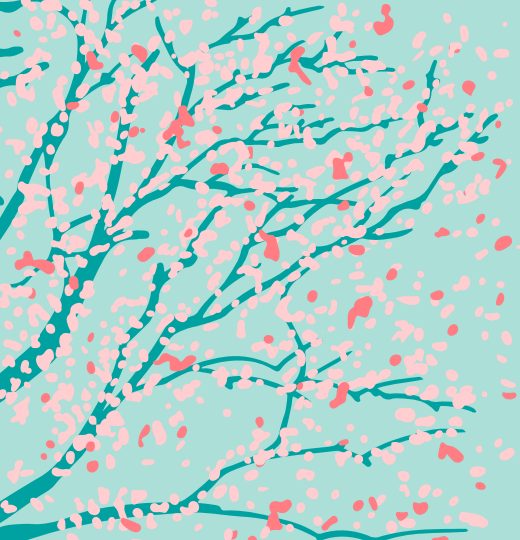

*Our ideas to help
beautify and
protect our
community*

Banner replacement

The current banners are over 5 years old and need to be replaced. We will be working with a local artist to design the new banners. Excited to see the new addition.

Community Safety

Working with SF Safe to ensure safety measures to help keep our community safe and protected.

A stylized illustration of a cherry blossom tree with pink flowers and a small bird flying towards it. The tree is on the right side of the image, with its branches extending towards the left. The bird is on the left side, flying towards the tree. The background is a light teal color.

Thank you Avenue Greenlight!
